1. Current full-time seniority employees covered by an MRA are eligible for GWIs. The process for calculating your year 1 rate is to add the GWI to your current rate, then move up to your new progression rate if you are still below that level. After year 1, add the GWI each year on August 1 and move up to the next progression step rate on your anniversaries if you're still below that to calculate your future rates.

2. A part-timer with a rate of pay higher than the progression rate would be red circled at that rate until the progression catches up with their red-circled rate.
